* Required

Who is this MS Roadshows for?

All 6 regional neuroscience centres. This meeting is limited to 15 places.

What will the meeting involve?

The primary objective of this roadshow is to define what we mean when we say progressive MS, how to use MRI to help us predict who will develop progressive MS and to only focus on lower limb function. Another issue that will be addressed are the implications the provision of therapies for progressive MS will have for MS services and how we can locate and make sure all our patients with progressive MS are identified and offered therapies.

What does the meeting cost?

Meeting materials and an evening meal will be provided.
